PROFILE

Driven 2nd-year B.Tech Computer Science student at LNCT University with a strong foundation in core computer science concepts, Data Structures & Algorithms, and object-oriented programming. Proven experience building practical web applications and personal tools through structured projects and internship coursework. Adept at rapid problem-solving, clean code standards, and collaborating on end-to-end software development. Seeking a software engineering internship to leverage technical skills in real-world environments.

SKILLS

Web Development • Machine Learning • Java / Python • Data Structures & Algorithms • Communication • Public Speaking

EXPERIENCE

Web Development Intern — 1Stop.ai

Feb 2026 – Apr 2026

Completed a hands-on Web Development Internship focused on end-to-end web application development using PHP, Laravel, MySQL, JavaScript, and Bootstrap. Engineered RESTful APIs and integrated AJAX for dynamic frontend interaction, contributing to real-world projects such as task management and booking administration systems. Tested and validated endpoints using Postman to ensure reliable performance and clean architecture.

Languages: Java, PHP, C, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: Laravel, Bootstrap 5, jQuery, AJAX

Developer Tools: IntelliJ IDEA, VS Code, Git, GitHub, Postman

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), REST APIs, Relational Database Management (RDBMS)

PROJECTS

Movie Recommendation System | Python, Jupyter Notebook, TMDB Dataset

Developed a content-based movie recommendation system using Python and the TMDB dataset to recommend similar movies based on movie features and similarity scores.

github.com/shashank-lnct/Movie-Recommendation-System

Expense Tracker | HTML, CSS, JavaScript, Bootstrap

Designed and developed a responsive expense tracker with an interactive, user-friendly interface to log, categorize, and monitor daily expenses using HTML, CSS, JavaScript, and Bootstrap.
